

AI+ LIBRARIAN

FROM AI UNCERTAINTY → LIBRARY AI LEADERSHIP

FORMAT & AUDIENCE

- **Format:** 7- hour interactive workshop in person or virtual
- **Audience:** Librarians, Library Directors, and Information Professionals (no prior AI experience required)
- **Goal:** Transform information services and establish AI leadership in the library and information science field.
- **Includes:** Interactive Workbook, AI+ Platform Access, 150+ Library-Specific Prompts, Implementation Roadmap

BUILDING THE FUTURE OF INFORMATION SERVICES

The rapidly evolving information landscape demands library leadership that prepares organizations for an AI-integrated future. To achieve this, we must transform how we engage with users, manage resources, teach AI proficiency, and uphold ethical information practices.

The AI+ Librarian Program is more than training—it's a strategic initiative designed to empower information professionals to leverage AI responsibly, enhance research quality, and lead their institutions in user engagement and governance.

WHY IT MATTERS

- **Library Leaders:** Position your institution as an AI pioneer aligned with ethical standards and industry best practices.
- **Information Professionals:** Save 5–10 hours weekly, integrate AI across functions, and guide researchers and communities in responsible AI use.
- **Users & Communities:** Experience trusted AI proficiency instruction, personalized engagement, and safe, AI-ready research environments.

ALIGNED WITH INDUSTRY PRIORITIES

- **User Engagement & Research Consultation**
- **AI proficiency for Librarians & Users**
- **Collection Intelligence & Resource Development**
- **Ethical AI, Privacy & Research Integrity**

"This is more than training
it's library transformation."

THE AI+ ADVANTAGE

- **Tailored Training:** Designed for library contexts and information science priorities.
- **AI+ Platform:** Safe, secure practice environment with compliance-ready templates.
- **Proven Impact:** Hundreds trained with 50% average improvement in service efficiency and engagement.

WORKSHOP OVERVIEW

FOUNDATIONS & LIBRARY EXCELLENCE

→ Module 1: AI Reality & Fundamentals in Libraries

- **Build both awareness and proficiency as a foundation for AI leadership.**
- **Understanding AI:** Core concepts, limitations, and strengths of AI systems.
- **Real-world applications:** Navigate three phases of library AI adoption.
- **Hands-on:** Position yourself as a strategic AI guide (not gatekeeper).

→ Module 2: Professional AI Communication

- **Master the AI+ PRISM Framework for library contexts.**
- **Core Skills:** Persona-Request-Intent-Structure-Model, a 5-step system for precision prompts.
- **Practical Application:** Transform vague user/research requests into professional-quality outputs.

LIBRARY TRANSFORMATION & LEADERSHIP

→ Module 3: AI-Enhanced Library Services

- **Transform services across four pillars—plus a new focus on AI proficiency instruction.**
- **Research Consultation Enhancement:** Improve quality & efficiency with AI-supported guidance.
- **Information proficiency Evolution:** Integrate AI-awareness into teaching.
- **AI proficiency for Users:** Equip librarians to deliver user workshops on responsible AI use, evaluation, and integration into research.
- **Service Efficiency:** Automate workflows and free time for complex consultations.

→ Module 4: Managing User & Researcher AI Dynamics

- **Navigate the intersection of traditional library roles and widespread AI adoption.**
- **Bridge Building:** Support users and researchers already using AI.
- **Trust Development:** Foster collaborative AI proficiency and safeguard research integrity.
- **Researcher Guidance:** Help scholars avoid AI misuse (e.g., fabricated citations, plagiarism).

→ Module 5: Ethical AI, Data Protection & Research Integrity

- **Go beyond privacy—address the full spectrum of library-relevant AI ethics.**
- **Critical Issues:** Privacy & surveillance, bias & fairness, intellectual freedom, access & equity, transparency & explainability.
- **Research Integrity:** Spot and prevent misuse of AI in academic work.
- **Risk Management:** Apply a three-tiered AI safety framework, compliance standards, and breach prevention protocols.

→ Module 6: Library AI Policy Development

- **Establish governance and long-term leadership.**
- **Policy Creation:** Ready-to-use templates for institutional rollout.
- **Implementation Strategy:** Lead a 30-day governance rollout aligned with IEEE CertAIed.
- **Leadership Development:** Build a continuous AI innovation roadmap for your library.

→ WRAP-UP

- Commitment to immediate AI-enhanced implementation.
- Ongoing access to **AI+ Platform** & community of practice.
- Tools, prompts, templates, and teaching resources for lasting impact.

WHAT YOU'LL TAKE HOME

Immediate Tools:	AI+ Pro Features:	Measurable Results:
150+ library-ready AI prompts	Choose between commercial and open sourced models	Reduce data aggregation and report generation time by 5-10 hours weekly
Complete implementation workbook	Text and image generation	Enhance client engagement and satisfaction
Library analysis templates and frameworks	Secure content upload	Achieve organizational AI leadership positioning
Library risk assessment and compliance design strategies	Library-specific AI apps	Develop career-advancing expertise in AI library services
	PRISM Framework integrated	
	Ready-made prompt templates	

TRANSFORM YOUR LIBRARY PRACTICE. LEAD INFORMATION INNOVATION.

Join the AI-empowered library leaders today!
